Jason is one of my favorite massage therapist ever. He uses the right amount of pressure to release the tight muscles without the pain. Very experienced with gifted hands.

Jason gives one of the best massages in the city of Houston. After an hour long deep tissue massage, I have a better range of motion in my shoulders, and the pain in my upper back is gone. He's amazing!

I had the best massage of my life. Now I am excited to repeat the "best." I had another best massage. I bought 90 minutes and I got at least 120 min (this happened the last time too). Jason was very intentional the entire time. I may just have found my monthly masseuse.

Jason can he make you cry "Mommy!" He listened to my areas of greatest needs and focused heavily on those. 5 days later, I still feel relaxed!

Jason has magical fingers. I generally do not like men massaging me because they can often work it too hard and cause bruising. Jason knew the right amount of pressure to apply to loosen up muscles without causing any bruising. I will be back.

I was welcomed by Jason with hands from the gods. 60 minute massages usually fly by for me. I also usually get bored with anything that does not have to do directly with my back. However, Jason used the the perfect amount of pressure on every tense joint. He did great with timing the massage to the areas I needed the most, finishing the treatment out with an amazing cooling cream that kept my back tingling for another 30 minutes.

I left my massage with Jason a new woman, and am not sure if I can go back to any other masseuse.

Jason provided the best massage I have had in years. He was able to key in to the problem areas without much direction and provided a top notch treatment. Tis' the season to treat yourself to this indulgence. You will feel like a million bucks and it is calorie free :)

Jason is a fantastic massage therapist for therapeutic/relaxing/stress management benefits. He has always been professional, courteous, on time, and quiet - allowing the client to relax, meditate, or nap :-)

Jason used the right amount of pressure, made me feel relaxed & didn't cheat me on any of my massage time. I've gotten plenty of massages & although this may be a bold statement, this massage was the BEST by far. I also enjoyed the scent of the oil because it was relaxing, smelled good, but yet wasn't too powerful of a smell. 5 stars for Jason!

I received quality service from the moment I called to schedule my appointment for a deep tissue massage. My massage was incredible!!! My massage therapist was Jason DeVries, who helped me feel comfortable and relaxed. I cannot wait to schedule my next appointment.

Overall, I was very impressed and will definitely be back soon.
